

When you request a password reset from RACS an email is sent to you containing a reset link. Click on that link.

Below is an image of the page you will see to reset your password. "S2 Member" is the secure login app used by the RACS website engine.

There are 3 options to create your password:

- **Use the password the system generated for you** - just click [Save Password](#) then click [Login](#) at the bottom.
- **Generate a new password** - click [Generate Password](#), then [Save Password](#), then [Login](#).
- **Create your own password** - just erase the generated one by backspacing over the generated password, type in your desired password, click [Save Password](#), then click on [Login](#) at the bottom.

Enter your new password below or generate one.

New password

jRKG20H7hmqElX54z#OBN5oM

Strong

Hint: The password should be at least twelve characters long. To make it stronger, use upper and lower case letters, numbers, and symbols like ! " ? \$ % ^ &).
